This industrial tropical modern villa in Bingin is an architectural gem. It has two bedrooms and a living space of 266 sqm built on 230 sqm of land, which makes it quite spacious for a two bedroom villa. The ground floor has an enclosed living room, which can be fully opened, a kitchen, a pool and a powder room. The top floor has two bedrooms connected by a bridge and their own ensuite bathrooms. The design is simple yet awning, with its high ceiling in the living room, bridges connecting the 2 parts of the villa, and the perfect mix of industrial steel beams, lots of glass, wood and shown bricks. This off-plan project project will be delivered in March 2024. If you are looking for a designer villa in Bingin, this is the place for you !
