Nestled in the untouched southern valley of Lombok, this villa offers a rare blend of privacy, natural beauty, and serenity. Surrounded by rolling green hills and only a short drive from the iconic Selong Belanak and Mawi beaches, this peaceful location immerses you in nature's rhythm. The sounds of birds, rustling trees, and distant waves replace traffic and noise, creating a sanctuary designed for mindful, slow living. This is an eco-conscious, freehold property where connection to the land and well-being are at the heart of everyday life.

From the carport, a stone pathway meanders through lush landscaped gardens toward a striking entrance defined by a bold triangular feature. Inside, clean architectural lines and an open-plan layout transition effortlessly to a covered deck and angular infinity pool, where cascading water, integrated greenery, and an optional slide create a tropical retreat that is both refined and playful.

The villa comprises two bedrooms, including a spacious master suite with a walk-in wardrobe and sweeping panoramic views. The children's room is thoughtfully designed to adapt over time, evolving from a creative play zone into a practical space for teenagers.

The open kitchen and dining area connect effortlessly to the outdoors, supported by a pantry, laundry, and exterior dog wash. Bathrooms combine natural textures with modern comforts, including double basins, open showers, and soft ambient lighting.

With rising land values in Lombok and growing interest in peaceful alternatives to Bali, this development offers strong rental potential and long-term value. Located in a prime area and surrounded by panoramic views of the valley and ocean, it combines the benefits of secure freehold ownership with a lifestyle deeply rooted in nature, family, and well-being.

It is not just a home, it's an architectural stance. Built for those who value structure, intention, and enduring beauty.
